Processor: Intel® Core 2 Duo

Memory: 2 GB RAM

English

pixel puzzles 2 radical roach. pixel puzzles 2 radical roach. pixel puzzles 2 radical roach. pixel puzzles 2 radical roach

I always enjoy doing these puzzles and spaing out. It would be nice if there were a hint button to the game 6.5/10. This is,

frankly, the least of all the games in this franchise. The colors are tedious, and the backgrounds make it much harder than it should be. I'm not a huge fan of Radical Roach, so I may be biased negatively, so keep that in mind. The puzzles are a good mix from a technical perspective, and the mechanics are same as you have seen in other games. So, if you are a fan of the franchise, this is a must have, but get it on sale or in a bundle as I did. 5.01/10. Fun game really Recommend people to get game. C: awesome sound track BUT i think they need to update for diffrent songs if possible. the songs keep you going C:. it gets your brain power to really work and feel like giving up BUT once done you feel so good C:. um i played 2, 60 puzzles i dont know if i could do 100 pieces XD it will kill me. love rouches. and man what a game XD if bored just take the time to play this game oh wow it hits the spot. please do an update soon !! feel like their could be like some kind of different gameplay like survival or you know little arcade games. Complete the puzzle before time runs out but of course it would like a 20 puzzle piece game instead of 60 :0/. and what about having avaters to get when completing puzzles or unlockables but of course that would mean you would need more puzzles.. This is, frankly, the least of all the games in this franchise. The colors are tedious, and the backgrounds make it much harder than it should be. I'm not a huge fan of Radical Roach, so I may be biased negatively, so keep that in mind. The puzzles are a good mix from a technical perspective, and the mechanics are same as you have seen in other games. So, if you are a fan of the franchise, this is a must have, but get it on sale or in a bundle as I did. 5.01/10. I'm not sure if it's because I've played too many of these and the gameplay being the same consistently has not increased my interest, or if it's the type of puzzles related to the theme, but I couldn't get into this Pixel Puzzles game this time around. The music was probably my favorite out of all the Pixel Puzzles, though it didn't make a difference in my interest for the game. I finished.because I'm a sucker for achievements and completing games that I start. Overall, not a bad game, it's a carbon copy of the other Pixel Puzzles, but with a different theme. I just don't recommend it for reasons listed. I'd like to see Pixel Puzzles add something to the game play in future iterations.. I always enjoy doing these puzzles and spaing out. It would be nice if there were a hint button to the game 6.5/10. Nice soundtrack.. Pixel Puzzles 2: RADical ROACH is like the other Pixel Puzzles Games a u201csimpleu201d Puzzle Game. I played every Game from the Series so far and solved every puzzle. I donu2019t like the setting of this installment of the series that much, but since I enjoyed the other games, I bought it anyways. Like in the other newer installments of the Pixel Puzzle Games, the game saves your progress in the Puzzles automatically, so you can quit at any moment and continue later on. You also can choose again if you want the pieces of the Puzzles to rotate or not. Overall, there is nothing you can complain about. Also in every Puzzle the pieces have different shapes, what makes the puzzles more fun. Itu2019s a lot of fun to solve the puzzles. I enjoyed it again, even though the motives arenu2019t 100% mine like said earlier. The only thing that they made worse than in the other installments are the background colors of the puzzles. You always had a variety of different colors from brighter to darker colors. This time, you can only choose between different darker colors. What is especially unfortunate for this game, since a lot of the Puzzle motives are already pretty dark, so it is often really hard to see the edges of the pieces, and so itu2019s harder to check where a piece could belong. Itu2019s also somewhat exhausting for the eyes in my feeling. Overall I can still recommend the game. Itu2019s a very good and enjoyable Puzzle Game again. So if youu2019re looking for a good and relaxing Puzzle game, you came to the right place. Although if youu2019re new to the Series I would recommend starting with another installment of the Series, like Pixel Puzzles 2: Space. Check the games out :) And of course, if you are, like me, a fan of the Pixel Puzzles Games, you canu2019t make anything wrong if you buy it.
